Fysica 2, Philosophy of Management & Organisation, Thermodynamics

Industries associated with family members or close family friends:

Consultancy, Digital (web) Production, Graphic Design, Dentistry, Tourism, Marketing

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to be my own boss, and the minor gets me started towards that goal.

Past work experience:

Bartending, Chauffeur

Favorite company or startup:

Coolblue,

Previous experience in teams:

I participated in several study projects during my Bachelor SBI, recently published the Amsterdamsche Studenten Almanak as the result of a six month fulltime project, was the captain of Team UvA at the international sailing race "Race of the Classics", wa

An example of resourcefulness or innovativeness?

During high school, I started a profitable website called "bierdealer.nl", essentially an online game where people could win a beertender. In October 2012, I bought an old lifeboat in Schotland and rebuilt it for use in the canals, making profit from doin.

Michael O'Connor

Past/current hobbies, interests, or technical knowledge:

Gym (3 years) . Cooking (7 years). Politics (4 years).
Writing (1.5 years) Travel (6 year).

Familiar with the following business knowledge:

Hotel Management (2.5 years) Sales Representative (1.5 years)
Economics Minor -University of Sydney
(6 months)

Future interests in the following technical knowledge and/or business knowledge:

Not Sure

Other courses besides EiP and CiE this semester:

Finance

Industries associated with family members or close family friends:

Not Sure

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me. The entrepreneurship minor looks good on my CV (vita, resumé).

Past work experience:

Not Yet

Previous experience in teams:

Student Association (Heinsus) - Leiden University

An example of resourcefulness or innovativeness?

N/A

Mihaela Ichim

Past/current hobbies, interests, or technical knowledge

Music listening (9 years); reading - particularly SF (12 years); traveling (6 years); computer programming (5 years)

Familiar with the following business knowledge:

Accounting (1 and 1/2 years, from school and job); Customer service (2 years, from job); Marketing

(1 year, from school)

Future interests in the following technical knowledge and/or business knowledge:

Marketing and Branding

Other courses besides EiP and CiE this semester:

Except EiP and CiE I am taking International Money and I will be working part time, 12 hours a week.

Industries associated with family members or close family friends:

IT, Service (tourism) industry, Banking,

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me.

Past work experience:

So far I have worked as a hotel receptionist which made me realise I enjoy working with people and also had a 6 months internship as an accountant.

Favorite company or startup:

Not really.

Previous experience in teams:

Durring high school I was responsible in leading and organizing student's' activities in an

international ecological project my school had and I've also been part of the Marketing team of a student association at my home university (Aser) and have been in

An example of resourcefulness or innovativeness?

At the moment GRASP is trying to organize a Romanian theater festival in Amsterdam this year, but we are dealing with many problems, among which the lack of resources(financial but also human) is probably the biggest issue. However, we came up with some p

Monique Rood

Past/current hobbies, interests, or technical knowledge

playing sports (18 years) traveling (5 years) going out (8 years)

Familiar with the following business knowledge:

Finance (1 year from school) general economics (3 years from school)

Future interests in the following technical knowledge and/or business knowledge:

Finance or general economics

Other courses besides EiP and CiE this semester:

Development economics, working in a restaurant

Industries associated with family members or close family friends:

Textile business and banking sector

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

Past work experience:

Bartender and waitress

Favorite company or startup: Previous experience in teams:

I participate in the FSA (Financial Study Association of Amsterdam), I have played team sports and I

have participated in research projects on the UvA.

An example of resourcefulness or innovativeness?

Within the FSA we have to come up with new ideas for the website or for posters etc. so you have to be creative and think out of the box.

Niels Dercksen

Past/current hobbies, interests, or technical knowledge:

Gadgets or home appliance (5 years). Music (Listening) (10 years). Playing Sports (14 years)
Politics (5 years)

Familiar with the following business knowledge:

Marketing (2 years, school), Accounting (3 years from school), Finance (3 years from school)

Future interests in the following technical knowledge and/or business knowledge:

Apps

Other courses besides EiP and CiE this semester:

I'll be working 8 hours a week

Industries associated with family members or close family friends:

ICT

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me.

Past work experience:

Horeca

Favorite company or startup:

Heineken

Previous experience in teams:

Hockey, school, student association

An example of resourcefulness or innovativeness?

n/a

Nina van Knapen

Past/current hobbies, interests, or technical knowledge:

Playing piano (13 years), hockey (15 years), cooking (5 years), visiting festivals (6 years), teaching (3 years), home decorating (4 years).

Familiar with the following business knowledge:

Marketing, communication, public relations (3 years, from university and an internship), work and organizational psychology (3 years, from university)

Future interests in the following technical knowledge and/or business knowledge:

Almost completely new things to me: Entrepreneurship, innovation, finance, management etc.

Other courses besides EiP and CiE this semester:

My elective course will be Finance. Besides that I will also take courses in Political psychology, Motivation and write a thesis. Furthermore, I work at my mom's business once a week (real estate).

Industries associated with family members or close family friends:

Real estate, research, health care, human resources.

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to be my own boss, and the minor gets me started towards that goal.

Past work experience:

Intern marketing/communication (6 months), office manager (1 year), peer educator (3 years), data developer (3 months), telemarketeer (6 months)

Previous experience in teams:

Several research projects for a class in school, at several companies where I've been working, and last but not least my hockey team (we've become champions 3 times in a row).

An example of resourcefulness or innovativeness?

During my internship, I was responsible for the entire marketing of the company I worked at. In

addition, I had to promote the company without any budget for marketing campaigns. Therefore, I

was 'forced' (in a positive way) to think up some creative idea.

Pauline Dekker

Past/current hobbies, interests, or technical knowledge:

Volleybal (4 years), Tennis (3 years), watching TV and having fun with friends (long time)

Familiar with the following business knowledge:

Economics (3 years, from bachelor). Finance/Accounting (2 courses, from bachelor)

Future interests in the following technical knowledge and/or business knowledge:

Not sure

Other courses besides EiP and CiE this semester:

Operations and Process Management

Industries associated with family members or close family friends:

Interior designer, bookkeeping/accounting, construction

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. The entrepreneurship minor looks good on my CV (vita, resumé).

Past work experience:

Only summerjobs like cleaning/working in a guest house

Favorite company or startup: Previous experience in teams:

I worked in a group for some of my courses, like Investment and Portfolio Theory (I and II). I played in a volleyball teams a few years ago.

An example of resourcefulness or innovativeness?

n/a

Pepijn Hofstede

Past/current hobbies, interests, or technical knowledge:

Playing sports (all my life), watching sports, watching tv-shows & movies (10 years), surfing (1 year) & Bodyboarding (15 years), snowboarding (2 years), Fascinated by humans (26 years): observing random people while having a drink (14 years), playing games

Familiar with the following business knowledge:

Getting familiar with the discourse in the last semester with the courses: Strategic Management,

Marketing, Entrepreneurship & Innovation, HRM and CSR.

Future interests in the following technical knowledge and/or business knowledge:

Strategic Management, Marketing (strategy, positioning), Research.

Other courses besides EiP and CiE this semester:

Not sure yet if I will be taking any other courses (probably one in the second block of the semester). Currently working for Antenna International at the Stedelijk Museum behind the info&audio desk. But will not be working many hours in the next few month

Industries associated with family members or close family friends:

Social Research, Multi media design (websites, apps etc), Creative industries.

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me. I want to be my own boss, and the minor gets me started towards that goal.

Entrepreneurship is the easiest way for me to make a difference in the world.

Past work experience:

I've worked for small companies like a catering service, a small local 'wok' restaurant, and at the moment I am working for a very large global company 'Antenna International'. But I have no management experience.

Favorite company or startup:

Virgin Group

Previous experience in teams:

Depending on what the definition of a team is, I've been in many teams in courses in the last years, for papers, presentations, research assignments, debates etc. For example in marketing we had to do an assignment where we had to come up with a new product

An example of resourcefulness or innovativeness?

I am the founder of jeu de boules club vondelpark haha thats probably entrepreneurial. I do believe I

am capable of 'out-of-the-box-thinking', which makes me potentially resourceful and/or innovative.

Rutger de Bruijn

Past/current hobbies, interests, or technical know ledge

Enjoying music every second of the day if possible!
Recently picked up playing the piano and started producing some (House) music. I like to go out, chill with the girlfriend and/or my friends, love (good) movies & tv-series and play a little tennis now an

Familiar with the following business knowledge:

Business Administration bachelor at VU (5 years - Have al my ECTS except my Thesis),

Bookkeeping/Finance (since 0,5 year I work parttime as a Werkstudent Finance at a middle sized company.

Future interests in the following technical knowledge and/or business knowledge:

Innovation Management (at existing companies) & Entrepreneurship (at new companies)

Other courses besides EiP and CiE this semester:

Organization and Management (6 ECTS), Bachelor Thesis at VU (9 ECTS), Werkstudent Finance at

Spotzer (very flexible 1 -2 days a week)

Industries associated with family members or close family friends:

ICT, Music, Healthcare.

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me. Entrepreneurship is the easiest way for me to make a difference in the world.

Past work experience:

Werkstudent Finance at Spotzer Media Group (past half year till now), Sales-experience on the streets (The Sales Unit, Pepperminds) and through telephone (Business to Business).

Favorite company or startup:

Soundcloud, Kickstarter,

Previous experience in teams:

Many experience: through Sports (member of youth board at Tennis club for several years), Study (6 years of Bachelor experience Business Administration and Economics), Fraternity (many teams, of which one was a Full-Time function for a half year (almanak).

An example of resourcefulness or innovativeness?

I organized a few little parties with some friends.

Sander Bossen

Past/current hobbies, interests, or technical knowledge

Cycle racing/ Cycling (6 years) Cars, motorbikes, etc (10 years) Art/ Design/ Fashion (3/4 years) "Being busy" (16 years)

Familiar with the following business knowledge:

All first and second year business courses from the university including a couple of additional courses, like Retailmarketing, CSR and Human Resource Management (2,5 years). Management (2 years, from job). Entrepreneurship (1,5 years, for my own company)

Future interests in the following technical knowledge and/or business knowledge: Mechanics (especially on cars, motorbikes, bikes, etc), Fashion, and I really liked the course Retailmarketing.

Other courses besides EiP and CiE this semester:

One second year and one third year course for my bachelor. Beside I work as a company director/ manager at an Italian ice cream parlor and I am still registered at the Kamer van Koophandel with our own clothing company.

Industries associated with family members or close family friends:

Health Care, Clothing, Psychology, Law, Stock Exchange, Banking, Management, Hospitality

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to

be my own boss, and the minor gets me started towards that goal.

Entrepreneurship is the easiest way for me to make a difference in the world.

Past work experience:

Almost all tasks in hospitality (from banqueting and dish washing to cooking and managing a team with over 30 members). Beside I have my own clothing company with two compagnons, but unfortunately we had a law suit a couple of months ago and we quitted ou

Favorite company or startup:

My favorite company will be my own company

Previous experience in teams:

I played hockey, football and tennis before, but unfortunately I had to stop because I had an accident with a scooter. Of course over the years I worked a lot in teams for school and study. And I've worked together with quite a lot of people in hospitalit

An example of resourcefulness or innovativeness?

I am not the most creative person on earth. But of course there are many moments in which you find the wrong, but still a great solution to a problem or a question on school or in different situations. I cannot describe a particular one.

Sjoerd Cuijpers

Past/current hobbies, interests, or technical knowledge

basketbal (4 years), music listening (10 years), cooking (1 year)

Familiar with the following business knowledge:

Finance (1 year, from job)

Future interests in the following technical knowledge and/or business knowledge:

marketing

Other courses besides EiP and CiE this semester:

'organisatie en management', no job.

Industries associated with family members or close family friends:

Assurance

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major.

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to be my own boss, and the minor gets me started towards that goal.

Past work experience:

a fulltime job at SABIC for 1 year, kind of financial work. Also worked 2 years in a restaurant.

Favorite company or startup:

none.

Previous experience in teams:

My basketball team, and sometimes i worked in a team at SABIC

An example of resourcefulness or innovativeness?

yesterday we got a leakage in the kitchen, i solved it with some good ideas.

Thijmen Dalhuijsen

Past/current hobbies, interests, or technical knowledge:

Skiing (life), photography (5 years), photoshop (5 years), making music (piano (15+ years)/ guitar (3 years)), anything outdoors

Familiar with the following business knowledge:

None...

Future interests in the following technical knowledge and/or business knowledge:

Management

Other courses besides EiP and CiE this semester:

I'm still writing my thesis. Shouldn't be too long before I'm done. Not sure yet what job I'll be

working, probably some assisting job on a photography set.

Industries associated with family members or close family friends:

Banking, healthcare and environmental sustainability.

Sources of motivation for taking the minor:

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

I want to know if entrepreneurship is for me. Currently I do not know if entrepreneurship is for me.

Past work experience:

I've worked in marketing the last couple of years; before that I worked in the horeca. Other than that

I've had a lot of experience ski-teaching.

Favorite company or startup: Previous experience in teams:

I always worked in teams at my marketing job, which was great. Team-work was greatly promoted

and I learned a ton. / Same goes for when I worked as a sous-chef in a small bistro.

An example of resourcefulness or innovativeness?

I like DIY'ing stuff and being outdoors (the mountains are preferred) - often I've found myself in places where a problem arose and not many tools/gear/items were present. Making do with what little you have and making the most of it has helped me on num

Tim Evegroen

Past/current hobbies, interests, or technical knowledge

Travelling (10 years). Fitness (8 years). Soccer (15 years).

Familiar with the following business knowledge:

Organization and management (3 years, from school). Public Relations (1 year, from student association)

Future interests in the following technical knowledge and/or business knowledge:

Organization and management, Marketing

Other courses besides EiP and CiE this semester:

Voluntary Job as a coordinator

Industries associated with family members or close family friends:

Finance and Control, Compliance issues

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to be my own boss, and the minor gets me started towards that goal.

Past work experience:

Worked as a private chauffeur, worked in a restaurant (kitchen)

Favorite company or startup: Previous experience in teams:

Study association POLIS (activities committee). Worked in teams for several courses in University. Played in several teams in professional soccer. Worked in teams for my job as a private chauffeur and valet parking at big events and private parties.

An example of resourcefulness or innovativeness?

I set up my own trading business in selling winter tires and wheels for cars. I buy them in Germany, transport them to the Netherlands and sell them here.

Familiar with the following business knowledge:

Accounting, finance & fiscal (3 years from university; 8 years from job); bachelor Economic & finance

@ UvA; customer service (5 years from job)

Future interests in the following technical knowledge and/or business knowledge:

I like human resources, management & organisational structures; gadgets and other technical innovations

Other courses besides EiP and CiE this semester:

I am done with my bachelor so technically this is my extra-curricular activity but I also have a job as a junior accountant/tax advisor and a few clients of my own who I help with their (business) financials

& computerproblems

Industries associated with family members or close family friends:

Pension/insurance/mortgage/fiscal/financial/art/investment

Sources of motivation for taking the minor:

Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I want to become very rich, and the minor gets me started towards that goal.

I want to be my own boss, and the minor gets me started towards that goal. The entrepreneurship minor looks good on my CV (vita, resumé).

Past work experience:

I have experience in accounting, fiscal and financial advise.

Favorite company or startup:

None

Vincent van der Bijl

Past/current hobbies, interests, or technical knowledge

Playing tennis (7 years); computer hardware/software (above average skill); other interests I had all my life with no particular skill level: board games; cars; movies; how things work; discussions; technical innovations/future possibilities; solving problems

Previous experience in teams:

I have worked in teams during my study. I am in the tenant commission (huurders commissie) of my building. I am also a member of the events commission of my tennisclub.

An example of resourcefulness or innovativeness?

At work we had this system for client administrations. I suggested a few changes in the system which decreased the time needed to finish the administration.

Wilco Mellema

Past/current hobbies, interests, or technical knowledge:

photography (3 years), music listening (6 years), shopping (a long time), reading (2 years)

Familiar with the following business knowledge:

Chemistry (2 years, job and internship),

Future interests in the following technical knowledge and/or business knowledge:

management

Other courses besides EiP and CiE this semester:

I am also a participant in the honors program of Leiden's University of Applied Sciences each wednesday- and thursday evening

Industries associated with family members or close family friends:

law, financing, healthcare, real estate

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging. I perceive that this Entrepreneurship Minor will be great for improving my social life.

Past work experience:

2 chemical internships, 1 job as a chemist, working in a supermarket if that is alright

Favorite company or startup:

Experienced: Quaker Chemical, Desired: Shell, Arcelor Mittal, DuPont

Previous experience in teams:

Before my bachelor studies i did a 'MBO' study in which we always worked in a team of 8 people. At my internship i worked in several teams to get some jobs done. I am also participating in the honors program of the University of Applied Sciences in Leiden

An example of resourcefulness or innovativeness?

During last year project the group and me developed a system which generates electric energy out of someones footsteps. Unfortunately we couldn't continue the project due to lack of time, money and resources.

Yannick Meijers

Past/current hobbies, interests, or technical know ledge:

Music, both listening and contributing (8 years) Sports, varying from climbing to fitness to basketball (12 years) Photography (1 year) Nature/travel (6 years)

Familiar with the following business knowledge:

Accounting (2 months now, from job) Management (2 years, from own company)

Future interests in the following technical knowledge and/or business knowledge:

Not sure

Other courses besides EiP and CiE this semester:

I work for AIESEC, part time, as Account Manager.

Industries associated with family members or close family friends:

Deloitte, Achmea, Shell, Heinz, Sanoma

Sources of motivation for taking the minor:

EiP gives me an educational experience that is more practical than my major. Entrepreneurship (and/or creating a new product or service) sounds intriguing or challenging.

Past work experience:

I founded a nonprofit organisation that is still up and running, I quit due to several reasons, one of

which is study, and left the organisation in the hands of the two other cofounders. The name of the organisation is Sport Empowerment Foundation. Curren

Favorite company or startup:

Red Bull

Previous experience in teams:

I played basketball for 8 years, of which the last 3 years on the highest level possible. I was the team captain. / I had to cooperate with two friends, with whom I founded the Sport Empowerment Foundation. / I currently work in the Board Battle team for

An example of resourcefulness or innovativeness?

I launched a promotion program for the Sport Empowerment Foundation, which turned out to be a huge succes. Indirectly it financially boosted our organisation with over 7000 euro. We did an "olympic tour" through Noord-Holland, where in every major city.

Key:

P=Product
S=Service
E=Either

Body-paint in Dam Square?
(Y)es
(N)o
(M)aybe

Best?
The first number is the ranked preference for the morning.
Thus, "1234" means somebody does their best work earlier in the day.

Continue?
Willing to continue venture after the minor?

SA? (response to the assessment)
1=surprisingly accurate 4=mostly inaccurate
2=mostly accurate 5=surprisingly inaccurate
3=half accurate

Dice game
R,Y Game is risky, but will play it.
R,N Game is risky, and will not play it.
Not Game is not risky, and will play it.

Party #: Ideal number of party-goers

Team? 1=Strongly prefers teammates who respect each other's individual happiness (2=lightly prefers)
4=Strongly prefers teammates who respect each other's ability and willingness to set aside individual happiness (3=lightly prefers)
